

# Brandon Cree

## Web Developer

**Address** 3358 31st Street, San Diego, CA 92104

**Phone** 301-648-6293

**E-mail** b.marcus.cree@gmail.com

**Portfolio** brandoncree.com

**GitHub** github.com/bcree11

**LinkedIn** linkedin.com/in/bcree

## Education

**2009 - 2013**                      **University of Maryland, College Park**  
Bachelor's of Arts in Economics  
Minor in Global Poverty

**11-2018 - 02-2019**            **LEARN Academy**  
Full stack web development bootcamp

## Skills

- Languages** - JavaScript, Ruby, CSS, HTML
- Frameworks/Libraries** - React, Rails, React-Router, Express.js, Next.js, Bootstrap, Material-UI
- Database** - SQL
- Testing** - Jest, RSpec, Enzyme
- Others** - Git, npm, Yarn, Node.js, Amazon Cognito, Adobe Photoshop, GIMP, phpMyAdmin

## Experience

- 03-2019 - 04-2019**            **Full Stack Web Developer Intern**  
*Discrete Chill*
- Built a fully accessible MERN stack CRUD app where users are able to sign in and select a product based on certain conditions that they select.
  - Converted our boilerplate React app into Next.js in order to reap the benefits of server-side-rendering.
  - Utilized Sequelize as our ORM to help manage queries to our MySQL database.
  - Implemented AWS Amplify and Amazon Cognito as a means for user authentication.
  - Utilized Material-UI library in order to style React components.
- 02-2014 - 11-2018**            **Sales**  
*Anheuser-Busch InBev*
- Increased sales year over year by up to 2% versus the negative expected regional trend of -4.5% by tailoring the portfolio of products to each account individually, growing distribution, selling in displays, selling in proven company programs, and gaining new placements.
  - Trained coworkers in Adobe InDesign in order to create and print point of sales material.
  - Increased efficiency in the shelf set department by implementing a new technique to send multiple pictures in a PDF file.
  - Executed monthly KPI goals and implemented company programs by providing exceptional customer service to owners, managers, employees, and patrons.

## Projects

- Batter Up!** - Baseball Hack Day 2019 San Diego 2nd Place Winner. Batter Up! is an app that gives users an estimated time of when their favorite player will be up to bat.
- ToolShare** - Built full stack Rails SPA utilizing the react-rails gem to use React.js for the views and PostgreSQL for the database. ToolShare is a platform that gives users the ability to rent out tools, rent them, or both. **Tech: Rails, React.js, PostgreSQL, Devise, Google Maps API, Mailboxer, React-Router, Moment.js.**
- Portfolio** - Built portfolio website from scratch. **Tech: React, React-Router, Material-UI, Materialize, Bootstrap.**
- Tech Talk on Responsive Design** - Shared some techniques learned through the challenges of creating portfolio website with bootcamp cohort. Built an app to give them live examples of the topics I discussed. **Tech: React, Bootstrap, React-Router.**
